

State Tax coffers are overflowing right now.
The State Sales tax has always been and added Insult to Injury
upon the common state taxpayers (thank you Weicker).
Of course it Bears most heavily on the Middle class. (people who work).
As well as those who dont.

Now is the time to CUT this tax back.
Please cut the state sales tax and eliminate the meals tax on prepared food during this time of
historic inflation.

Thank you,
Nicholas Lorusso
